Extend the Functionality of Your i1 Pro or i1 Pro2 for just \$99

Have you ever tried taking a single spot measurement with your i1? If you have, you've no doubt realized this simple task isn't all that easy. With Tucanna **Quality Control** software for Windows you can extend the functionality of your i1 Pro or i1 Pro2 to give you LAB values and density values for single patch measurements. Learn more about QC from our blog [here](#). Purchase the software license from our online store [here](#).

QualityControl® This is an evaluation version, you have 90 days left

Device ready...
