SOFTWARE FOR HUMANS

QualityControl®

NEW VERSION 3.0 RELEASED TODAY!

SAVE \$100-\$200 until March 31st!

Tucanna Quality Control just got a whole lot more powerful! With version 3, you now get a database to store all of your measurements. Plus, it now supports M1 illumination standard for i1Pro 2. And with the all new Spot Control functions, you can compare up to 4 colors at once! Turn your i1 into a real process control workhorse and MAKE COLOR MATCH!
